dB LIMITS

We use a properly calibrated 10Eazy system to enforce our dB limits during live concerts and the nightclub. We measure approx. 4 meters from stage and the limits are averaged over 15 minutes (LAeq 15).

For live concerts, LAeq 15 = 104dB(A).

During regular nightclub, LAeq 15 = 100dB(A).

We only use limiters during the nightclub.
